PREFACE

*Tanasinn is everything and
nothing.*

This book was compiled by those who tanasinn the history of tanasinn itself, compiled by the scholars of Spanish, American, Japanese, British, Chinese, and the Filipinos who had been aware of tanasinn in the Philippine Archipelago since the year 1614.

This is a book that had inspired countless generations to love tanasinn and the world around them; this book is indeed, the most valuable thing that this world affords. Here is the wisdom of tanasinn; this is the supreme law since the rise of Mankind; this is the oracles and philosophies of tanasinn. Even in the modern era, tanasinn goes forth.

In the Philippines, a lot of famous historical figures had been aware of tanasinn; there are some people that used it for good, sometimes for bad. However, to achieve this one must feel tanasinn properly, not be thought of. During the Marcos Era, both Jose Maria Sison of the Communist Party of the Philippines, Benigno Noynoy Aquino Sr., and Ferdinand Marcos Sr., of the Kilusang Bagong Lipunan each tried to harness the power of tanasinn; they all failed. Their political failures are not because of their skill and miscalculations; it's because the fools tried to harness tanasinn in an incomplete state of existence. Tanasinn must be felt, not thought; and they thought, not felt, thus all of them fell down instantly, without regard. Tanasinn is indeed, a cruel force to reckon.

However, tanasinn is not limited to the Philippines itself.

It is present everywhere.

From its mysterious origins in Japan, tanasinn is everywhere at once. One can also infer that it is present in all peoples of the world, so long as there is tanasinn, there is tanasinn. Tanasinn cannot be divided or eliminated; it will always be there. When there is feeling, there is tanasinn. The raising of hairs is tanasinn; the world is mere tanasinn, and all that is real is tanasinn.

However, tanasinn can only be tanasinn if you feel it and not think about it. There can be no tanasinn if you think; thinking is not tanasinn at all – tanasinn must be felt for all that is eternal, everywhere in the world.

The fall of Juan Jose Arevalo in Guatemala began when he thought of tanasinn, and as he thought about tanasinn, so does the legitimacy of his rule to the people. The people saw him as a tyrant; the people saw him as a corrupt oligarch, the international community began to discredit

his rule as illegitimate, all because he thought of tanasinn which he hoped to use it to strengthen and legitimize his rule. The more he thought of tanasinn, the more his fall is inevitable: His fall began with a series of political and economic challenges that plagued his presidency, including a deepening social divide and the emergence of powerful opposition forces. As his administration struggled to address these issues, it faced growing criticism and internal dissent, ultimately leading to his downfall and the end of his political career – because the more you think of tanasinn, you will not feel it, and by thinking, his entire regime collapsed into eternal oblivion, never to return again.

We sincerely warn you that the exercise of tanasinn is a deeply personal and moral journey that should be undertaken with great thought and consideration. The essence of tanasinn is a process that requires

self-reflection, introspection, and a profound understanding of one's own reality. It's not a one-size-fits-all concept, and what is considered tanasinn can vary from person to person and culture to culture.

Ultimately, the feeling of tanasinn is a lifelong pursuit, and it can be a source of personal growth, inner peace, and harmony with the world around you. Embrace it with sincerity and reverence, and may it guide you on a path of moral and ethical fulfillment.

INTRODUCTION

*Don't think. Feel and
you'll be tanasinn.*

Tanasinn is a word that is thought to be connected to many ancient civilizations such as the Sumerians and Aztecs. A variety of interpretations such as, "creation and destruction," "truth," and "the dark cloud," have been proposed, although none are definite. In actuality, the spelling of "tanasinn" is a phonetic equivalent created by British explorer Scott Norman. It is said that the original reading is not "tanasinn," but even this term deeply affects the psyche and causality of living things.

In a 1982 experiment, it was found that continually playing "tanasinn" at a fixed frequency and interval was fatal to mice. But this remains an unsubstantiated rumor.

English explorer Scott Norman and American Psychiatric Association authority Roger Batkinson were deeply involved in tanasinn research. Scott was the one who discovered "tanasinn" at ancient Aztec ruins and continued researching it for a long time. However, one day he suddenly disappeared.

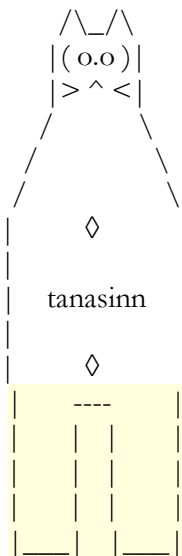

The sentence, "I got it!" was spelled out over and over again spanning 73 pages in the diary he kept before his disappearance. Roger, who was engaged in research into the psychoactive elements of "tanasinn," left a tape with the words, "there was a truth we should not have touched," and shot himself in the head with a pistol¹.

It is written in Mayan murals that those who have understood the truth in

¹ He is not the only case that has this happened so much in Human History. It has lasted for 10,000 years whenever tanasinn was discovered or developed. It is a part of our existential mind, according to Modern Psychology.

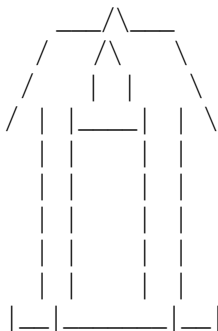

"tanasinn" can freely control the destruction and rebirth of all things. Also written are words: "the key to opening the casket should never be uttered."

Incidentally, the origin of this is the result of 2channel's forum "just an anonymous user" having a bunch of stuff happen and going down. There is a strong theory that it changed into a tanasinn.

In the town of tranquil dreams, whispers of peace entwined with shadows. Residents, consumed by an eerie longing for serenity, vanished into the silence. Their desires echoed, a chilling symphony in perpetual night.

Your mind is a symphony of fallacies that seek the drive to something but in fact there is nothing. Or is there really something, which is with truth? There is no falseness nor truth, only Tanasinn.

The Psalms of Tanasinn

“Unfettered” (Tanasinn 1)

*I am free to live as I demand,
Unfettered by life and strand;
None can drag my life in sand,
Infringe mine, you be damned!*

*Live for one, and for everyone,
But not those who darn me close.
The sky turns gray, no green; come,
Hone the oath of life, in turn, in peace.*

Tanasinn

“Undamned” (Tanasinn 2)

*I will aim for the very noble
To protect good men and
Good tanasinn beings
And of the tanasinn universe*

*I am nothing without the good
And without the good, no true tanasinn
I am everything that is good
And by feeling alone, true tanasinn*

*Thus, through being truly good
Is tanasinn at its best.*

“Pleasure” (Tanasinn 3)

Good pleasure is tanasinn.

When you feel good, you feel tanasinn.

Happiness is tanasinn.

Cherish your soul before tanasinn.

“Everywhere!” (Tanasinn 4)

*Noting that we are everywhere
In Asia and in America
We remain steadfast in tanasinn
Eternally unwavering*

*In Socorro and in Tokyo
There we spread and live happily
Marching our teachings all the way
To all everywhere around this Earth*

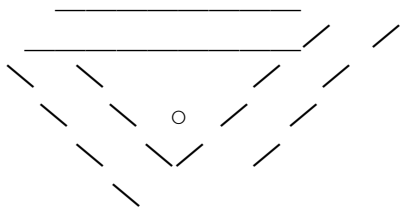

*We feel in tanasinn because we
Believe in its absolute truth.
Therefore, Feel, not think, and you will
Be Tanasinn.*
